

AGENDA ITEM #7: 2034 Long-Range Transportation Plan: Project Prioritization

SUBJECT:

The HRTPO Board has requested that the prioritization of projects being considered for the 2034 Long-Range Transportation Plan (LRTP) be presented to the Board for review at its meeting on September 15, 2010.

BACKGROUND:

During the HRTPO Board meeting of July 21, 2010, Ms. Camelia Ravanbakht, Deputy Executive Director, presented the final report on the HRTPO Project Prioritization and Selection Process. During the discussion following the presentation, the Board noted the General Assembly session to take place this fall and the potential benefit of being able to provide legislators with information on the top transportation needs in Hampton Roads during that session. In order to have the needed information in time, the Board requested that the project prioritization work associated with the 2034 LRTP be presented to the Board in September 2010.

Ms. Camelia Ravanbakht, Deputy Executive Director, HRTPO, will brief the CTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
