

# *Navigating the Future* **Hampton Roads 2034 Long-Range Transportation Plan**

## **UPDATE ON WORK**

**Transportation Technical Committee**

**March 4, 2009**

**Andy Pickard, PE, AICP**

**Principal Transportation Engineer**

## Development of Vision Statement

*Combine recent efforts into one statement*

December 2008 TTC Survey: **Transit expansion** and **Maintenance of existing infrastructure** were at top of list.

February 2009 MPO Retreat: The MPO noted the importance of **regional priorities over local priorities** during development of a vision for the MPO.

Soon-to-be-completed Transit Vision Plan: **Transportation choice** noted as important in vision statement (ensuring greater mobility, economic development, environmental protection, energy independence, and quality of life).

*Navigating the Future:*  
Hampton Roads 2034 LRP

## **Preliminary Draft Vision Statement**

The Hampton Roads region will both maintain the transportation infrastructure we have today to ensure its continued utility and safety, and expand our transportation system such that our residents and visitors have greater choice among efficient routes and modes available to them. Expansion of our public transit system is key to this greater array of choices. We recognize that bringing our transportation system's maturity to fruition will often require choosing regional priorities over local priorities to achieve greater mobility, economic development, environmental protection, energy independence, and quality of life for all residents of Hampton Roads.

# Bicycle Facilities Gaps Analysis

## Factors Influencing the Demand for Bicycle Facilities

*Combination of literature review and experience.*

### Supply of Users

- ✓ Population density
- ✓ Proximity of bike commuters
- ✓ Proximity of non-drivers

### Demand for Users

- ✓ Employment density
- ✓ Destinations

### Supply of Facilities

- ✓ Bridges
- ✓ Interstate and Freeway ramps
- ✓ Connectivity
- ✓ Transit connection

*Navigating the Future:*  
Hampton Roads 2034 LRP

## Outreach and Branding

Created new logo and branding name

*Per suggestions in December 2008 TTC survey.*

*Navigating the Future:*  
**Hampton Roads 2034  
Long-Range  
Transportation Plan**

*Navigating the Future:*  
Hampton Roads 2034 LRP

## **Remainder of FY09**

Vision Statement completed.

Complete draft of bicycle facilities gaps analysis.

Develop 2034 LRP web page.

2034 highway volume estimates.

Ridership and cost estimates for Transit Vision Plan  
(via consultant).

Begin collecting candidate project ideas.
